

### **List of HF DL frequencies**

HF DL is a long range (world wide) professional mode.

It is transmitted information and especially geographical positions of planes and ground stations.

Two lists of frequencies are proposed :

- one sorted by coast station ID (pages 2 to 7)
- one sorted by growing frequencies (pages 8 to 13)

The "Frequency" is the one tuned on the receiver (in USB).

**List of frequencies sorted by coast station ID.**

**Frequency (kHz)**

**Coast station**
